Table of Contents

Important
Before using this guide you will need to have a Nochex account, if you haven't already signed up click the following link and choose between either a Seller or a Merchant account: https://www.nochex.com/gb/merchant-services/

Customers are recommended to always back up their code before making any significant changes, such as these detailed in this document.
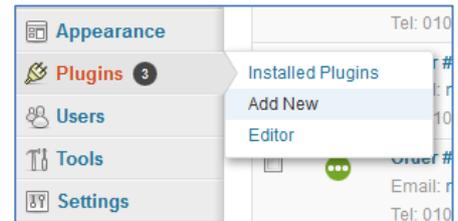

Setting Up Nochex as a Payment Option

- With the Nochex payments module installed you can not only accept credit card payments but also Nochex members can pay using their Nochex account.

- Customers don't even need a Nochex account to make payments through Nochex making it quick and easy for customers to make payments.

- Nochex uses anti-fraud protection like 3D Secure – the leading "Internet Authentication Protocol" designed by Visa and MasterCard, to ensure your customers can make payments in confidence.

- Emails are sent directly from Nochex giving payment confirmation both to the customer and the seller.
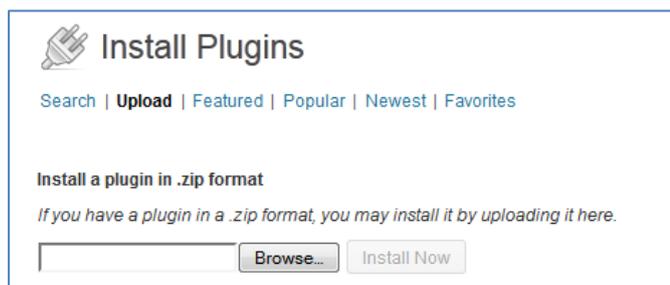

The installation instructions below explain how to setup Nochex as a payment option in WooCommerce and Dokan.
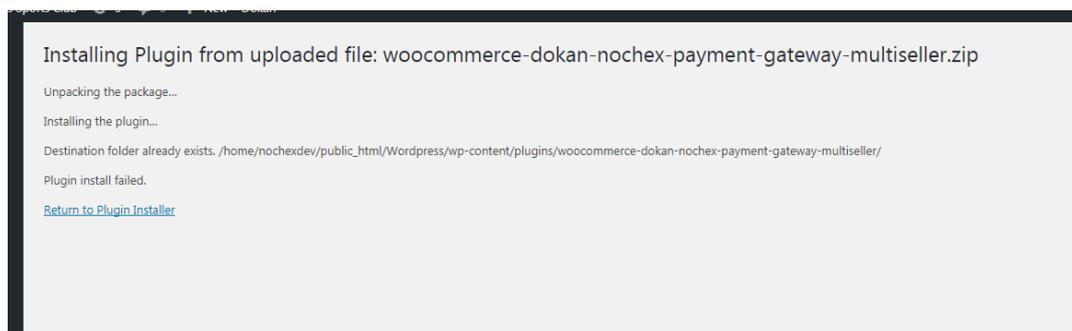

1. First you must have the WooCommerce and Dokan plugin installed into WordPress.

2. Make sure you have downloaded the Multiseller module for Dokan module and Dokan File Update located here

3. Login to your WordPress admin area.
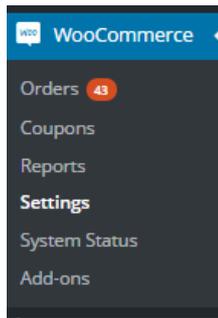

4. Go to **Plugins -> Add New**

5. Click the **Upload** tab.

6. Click **Browse** and find where you have downloaded the Multiseller module for Dokan module, select the file and click **Open**.
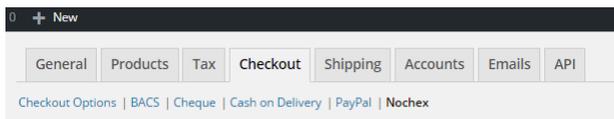

7. Click **Install Now**

8. After the plugin has been installed click **Activate Plugin**

9. Go to **WooCommerce -> Settings**

10. Click the **Checkout** tab, then **Nochex**

11. Fill in all the necessary details, ensure the **Enable Nochex** box is checked and that your Nochex email address / merchant ID has been entered correctly and click **Save Changes**.

12. To test the Nochex plugin check the **Enable Nochex Test** Mode box and complete a test transaction. (**Always remember to uncheck the Enable Nochex Test Mode box when you want to start accepting live payments.**)
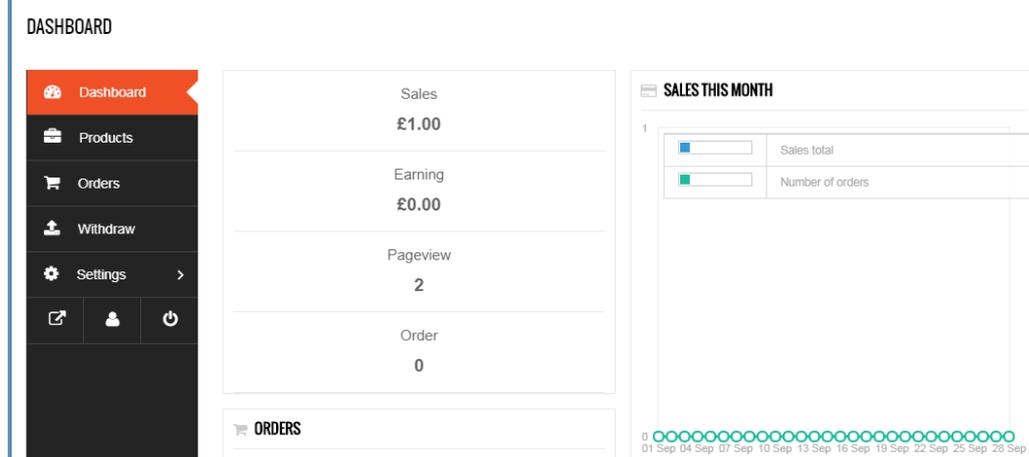

13. Go to the Dokan File Update folder that you have downloaded from [here](#) and extract the folder.

14. Copy the files from the folder to the corresponding folder on your web server. You can use FTP or a File Manager for this process.

15. After the above has been updated, your sellers can setup their profile. (See Page 7 on how to do this)

# Seller Merchant Setup

1. Firstly your seller must login to their Dokan dashboard

2. Go to Settings > Payment

3. Enter the Nochex registered email address

4. Update Settings.
