Important

Before using this guide you will need to have a Nochex account, if you haven't already signed up click the following link and choose between either a Seller or a Merchant account:<http://nochex.com/merchantservices/>

Setting up Nochex as a Payment Option

- With the Nochex payments module installed you can not only accept credit card payments but also Nochex members can pay using their Nochex account.
- Customers don't even need a Nochex account to make payments through Nochex, making it quick and easy for customers to make payments.
- Nochex uses anti-fraud protection like 3D secure – the leading “Internet Authentication Protocol” designed by Visa and MasterCard, to ensure your customers can make payments in confidence.
- Emails are sent directly from Nochex giving payment confirmation both to the customer and the seller.

The installation instructions below explain how to setup Nochex as a payment option in CubeCart.

Installation Instructions

Updating the files

1. Before you can enable Nochex as a payment option, you will need to update one of the Nochex module files with the file available [here](#).
2. You will need to copy the downloaded file into your website at the location `<website>/modules/gateway/Nochex_APC` and overwrite the file of the same name already there.

Enabling the Module

1. Firstly **login** to your Cubecart account
2. Go to **Manage Plugins** in the **Plugins** section.
3. You will be taken to a page where you can select the payment module you wish to install. Click **configure** beside the Nochex logo.

4. You will now need to enter details about your Nochex account. It is recommended that you put the status into **Test Mode** to check if everything is working. After you have found that everything is working as it should, remember to put the status to **Live Mode**, otherwise no money can be accepted.

- To test the Nochex payment option, do a test transaction and select Nochex from the payment options.
