Important

Before using this guide you will need to have a Nochex account, if you haven't already signed up click the following link and choose between either a Seller or a Merchant account:
<https://www.nochex.com/gb/merchant-services/>

Customers are recommended to always back up their code before making any significant changes, such as these detailed in this document.

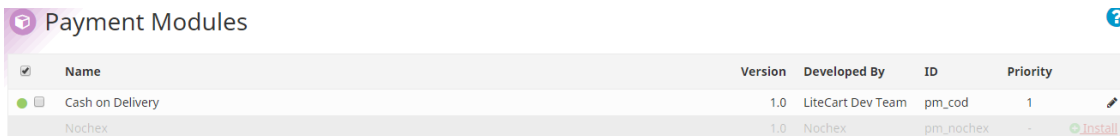

Setting Up Nochex as a Payment Option

- With the Nochex payments module installed you can not only accept credit card payments but also Nochex members can pay using their Nochex account.
- Customers don't even need a Nochex account to make payments through Nochex making it quick and easy for customers to make payments.
- Nochex uses anti-fraud protection like 3D Secure – the leading “Internet Authentication Protocol” designed by Visa and MasterCard, to ensure your customers can make payments in confidence.
- Emails are sent directly from Nochex giving payment confirmation both to the customer and the seller.

The installation instructions below explain how to setup Nochex as a payment option in Litecart.

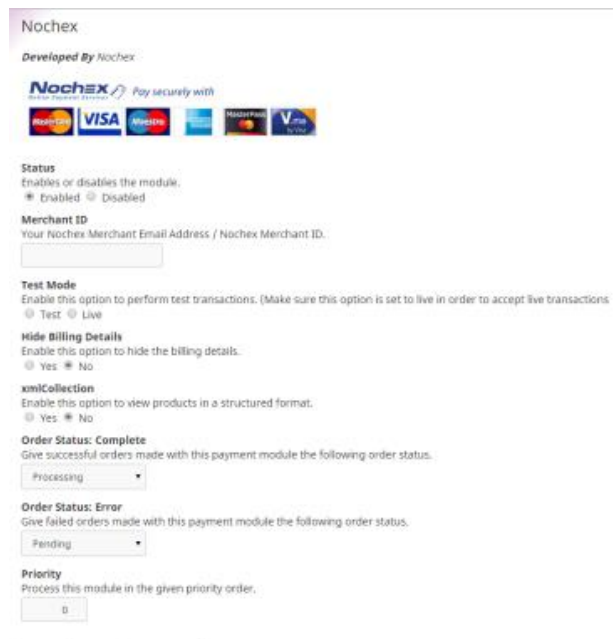

Installation Instructions

1. Firstly make sure you have downloaded the module files located [here](#)
2. Extract the *Litecart_Nochex_Module.zip* archive.
3. Copy the files and folders from the archive to the corresponding Litecart folders on your web server. You can use FTP for this process.
4. **Login** to your Litecart admin. Go to **Modules -> Payment** and click the button *Install next to the Nochex module.*

Name	Version	Developed By	ID	Priority
Cash on Delivery	1.0	LiteCart Dev Team	pm_cod	1
Nochex	1.0	Nochex	pm_nochex	-

5. Complete the installation by adding relevant information to each field.
6. To test the Nochex payment option complete a test transaction. Make sure **Test Mode** in the admin section is set to **Test**. (Always set the option to Live, when you want to start accepting live payments)
